

AD VERIFICATION AND COMPETITIVE ANALYSIS

The 2 channels ViDeus Auditor platform is the best option for TV channels, to record the own content and automatically detect ads with the Fingermetric tool. And on the other channel it is possible to record the competitors for later analysis.

Easy clip generation with contained ads, for proof of appearance.

With an easy access, the operator can check for aired content and export the results of the ViDeus Auditor. It is a powerful tool in a TV channel.
