

ViDeus[®] Auditor

RECORD · ANALYZE · AUDIT

**EVERYTHING
ON AIR.
RECORDED,
ANALYZED
AND AUDITED.**

Comprehensive platform for 24/7 recording, legal recording, auditing, technical monitoring and intelligent analysis of television, radio and streaming signals.

LEGAL RECORDING

Continuous,
reliable recording.

COMPLIANCE

Regulatory
compliance.

MONITORING

Technical monitoring
and alarms.

RATINGS

Audience data
integration.

METADATA

As-Run logs, EPG,
SCTE, subtitles
and more.

ARTIFICIAL INTELLIGENCE

Automatic
content analysis.

ONE PLATFORM
FOR A WORLD
OF SIGNALS.

MUCH MORE THAN RECORDED VIDEO

ALL INFORMATION, SYNCHRONIZED WITH THE CONTENT.

ViDeus Auditor integrates and synchronizes everything that describes what went on air on a single timeline, making search, analysis and auditing easier.

Every second of video can be linked to all the information explaining what happened at that moment.

**VIDEO + AUDIO**

Continuous 24/7 recording with immediate historical access.

**RATINGS**

Synchronized audience data.

**AS-RUN LOGS**

Integration with automation and traffic. Planned versus aired.

**EPG**

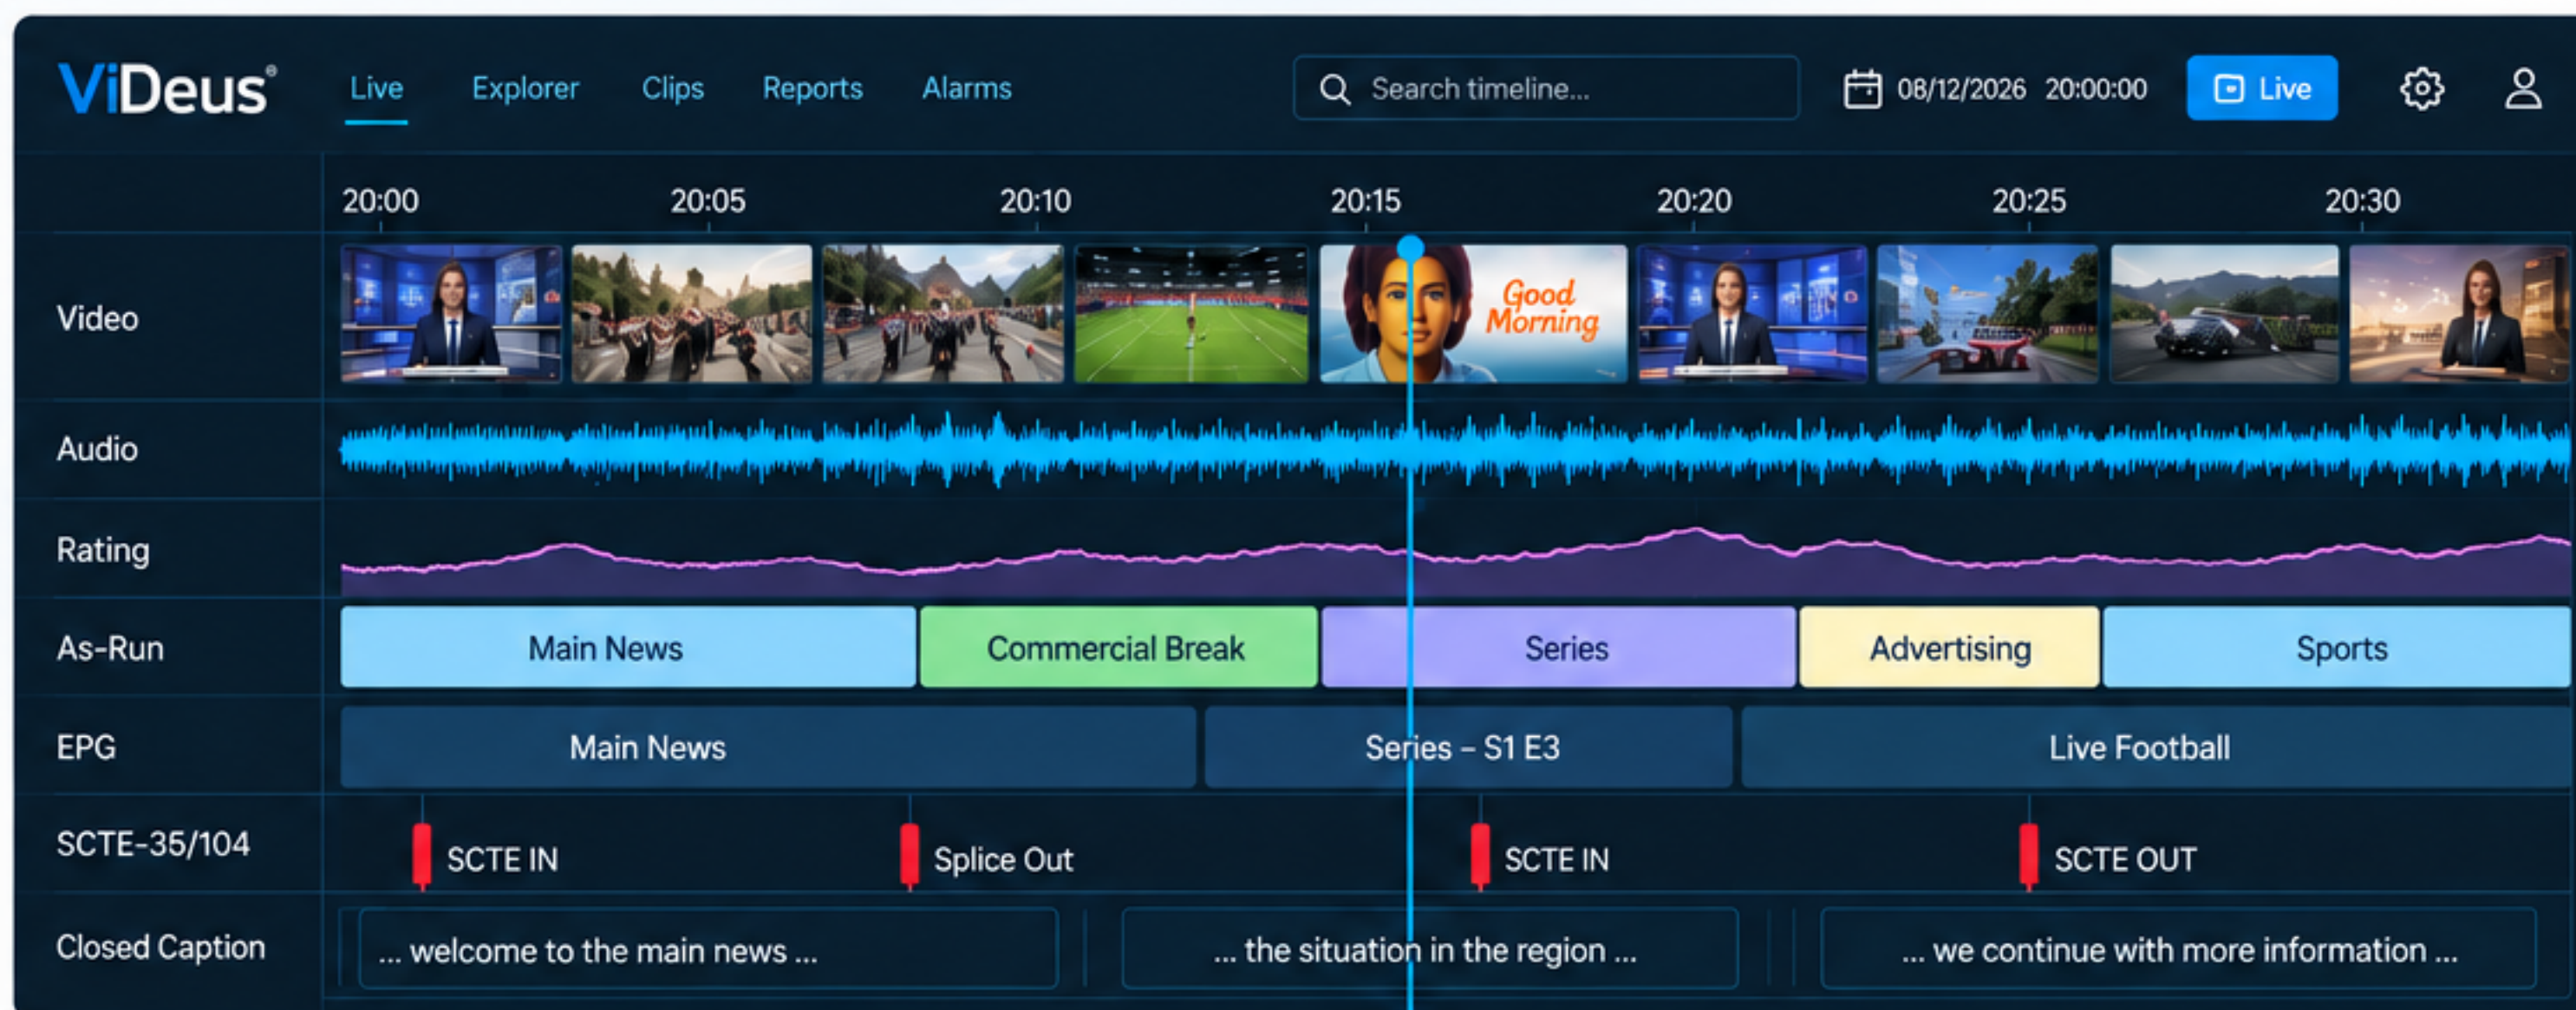

Integration with electronic program guides.

**SCTE-35 / SCTE-104**

Event detection and recording, markers, breaks and associated data.

**CLOSED CAPTION & SUBTITLES**

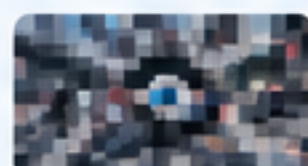

Detection and extraction of subtitles and Closed Caption.

**BASIC SIGNAL MONITORING**

Automatic detection of technical events and alarms.

Threshold settings and notifications for reliable operation.

Video Freeze

Black Screen

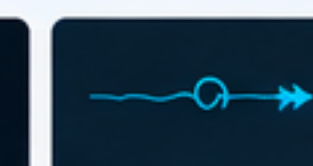

Video Loss

Low Audio

Audio Loss

Loss

Bitrate

Signal Presence

Technical Alarms

ALL YOUR SIGNALS. ONE PLATFORM.

Receiving, recording and auditing signals from any source, from traditional broadcast to DRM-protected OTT platforms, without multiple devices or isolated solutions.

BROADCAST

ASI · RF · DVB-S/S2 · DVB-C
DVB-T/T2 · ISDB-T · ATSC
PAL/NTSC · SMPTE 2110
SMPTE 2022-6 · and more

DISTRIBUTION NETWORKS

IP AND STREAMING

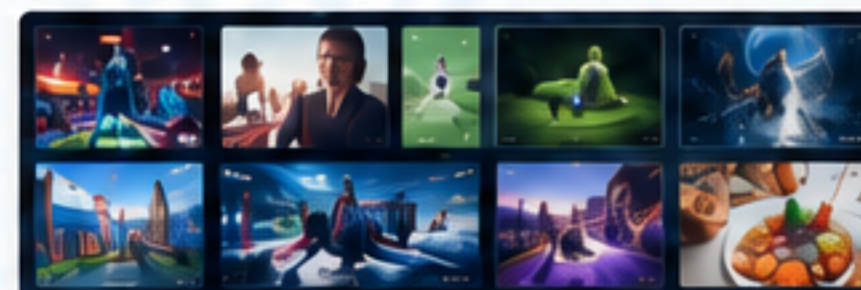

SRT · NDI · HLS · RTMP · RTSP
MPEG-DASH · MPEG-TS over IP
UDP/RTP · Multicast · Unicast
WebRTC · Zixi · and more

OTT + DRM

OTT PLATFORMS

Direct reception and auditing of OTT signals, even DRM-protected content. No dedicated set-top box per channel required.

No dedicated set-top box per channel required.

INTEGRATIONS

CONNECT WITH YOUR ECOSYSTEM

API REST | **MCP** | LDAP/OAuth
Active Directory | CIFS | NFS
FTP | HTTP/HTTPS | Webhooks
and more

MCP – CONNECT VIDEUS WITH AI

Integration through Model Context Protocol (MCP) lets AI assistants and chats interact with information managed by ViDeus.

**A WORLD
OF CONTENT.
ONE PLATFORM.**

SUPPORTED PLATFORMS AND SERVICES

Audit live and on-demand content from major OTT platforms, browsers and streaming services.

Smart TV

Mobile
devices

Web
browsers

Apps and
operators

Streaming
services

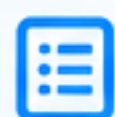

ANY SOURCE.
ANY FORMAT.
ONE SYSTEM.

Centralize operations, simplify infrastructure and get a complete synchronized view of everything on air.

ARTIFICIAL INTELLIGENCE FOR YOUR CONTENT

FROM THOUSANDS OF HOURS OF VIDEO TO AN ANSWER IN SECONDS.

ViDeus Auditor uses Artificial Intelligence to automatically analyze recorded content, generate metadata and enable intelligent searches, auditing everything on air with precision and natural language.

AUTOMATIC SEGMENTATION

Identification of programs, news, interviews, blocks and topic changes.

SPEECH TO TEXT + DIARIZATION

Automatic content transcription and speaker identification.

FACIAL RECOGNITION

Automatic detection and identification of people.

LOGO RECOGNITION

Identify brands and their on-screen commercial presence.

AUDIO & VIDEO FINGERPRINTING

Automatic recognition of commercials, promotions and previously registered content.

OBJECT AND CONTENT DETECTION

Automatic classification of elements, scenes and categories.

LLM / GENERATIVE AI

Summarize, classify, interpret and query large volumes of content.

INTELLIGENT SEARCH

Quickly find what you need, with advanced filters or natural-language queries.

AUTOMATED ADVERTISING AUDITING

Which commercial aired, when, where, how many times, and which audience it reached.

TURN YOUR BROADCASTS INTO STRATEGIC INFORMATION.

REAL CONTENT. SMARTER DECISIONS.

ASK QUESTIONS. GET ANSWERS. EXTRACT VALUE.

What did the minister say about the economy?

Show me all the commercials from this brand.

How many times did this spot air last week?

Find the moments where this person appears.

Generate a summary of last night's newscast.

MCP

Model Context Protocol

CONNECT VIDEUS WITH CONVERSATIONAL AI

Integrate through Model Context Protocol (MCP) so AI assistants and chats can interact with information managed by ViDeus.

KEY USE CASES

And many more applications.

Advertising auditing

Regulatory monitoring

Programming analysis

Compliance and legal recording

Audience research

Research and historical archive
